Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Tuesday 09 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with outbreaks of rain, turning unsettled this evening.

Today:
It will be a rather dull and cloudy day for many with outbreaks of light rain and drizzle at times. Winds will strengthen throughout the day before a band of heavy rain approaches later. Maximum temperature 10 deg C (50 deg F).

Tonight:
During this evening and overnight, heavy persistent rain will move eastwards across the region. Winds will be strong with the risk of coastal gales developing. Minimum temperature 5 deg C (41 deg F).

Wednesday:
It will remain unsettled on Wednesday with further spells of rain, heavy at times and strong winds. Overnight, winds will continue to strengthen with the risk of gales developing inland. Maximum temperature 10 deg C (50 deg F).

Outlook for Thursday to Saturday:
Frequent blustery showers, heavy at times, on Thursday and Friday with strong winds and a risk of gales developing for a time. Further showers on Saturday but less windy.
